

## DI: 'Divine or Deceptive Intervention'?

By Ra

### I All is not what it seems

At this moment the many interstellar, interdimensional forces, extraterrestrial and terrestrial forces of the Light are seeking to prevent a Deceptive Invasion scenario portrayed as 'Divine Intervention' (DI). We urge you to have the 'Discerning Instinct' and 'nose' of a 'Detective Inspector' such as you have many on your Earth plane;

All is not what it seems, even in the hallowed New Age realms of channelling.....now more so than ever as the Battle in and on all levels of Creation focused on Earth is rapidly heating up. The plot really thickens in the New Age channelling community; one starts with the plausible premise that with the dark, nothing is what they want you to believe.

In recent weeks many channelled messages talk about an intervention that is imminent, we implore you to be very wary of such statements; not because there is no intervention planned from higher dimensions or from ET/Galactic levels, this is possible, even probable, however if such intervention scenario does go ahead it is unlikely to be the intervention that it is labelled to be at this early stage of spiritual awakening of most of mankind. This DI is 'sold' and endorsed to you by human channelers channelling so-called 'ascended masters', 'archangels' and other spiritual intermediaries as something that should be embraced as truth....

When at this critical juncture of global awakening channelled messages carry the phrase 'DI' do not automatically assume that such phrase must come from a source of information that must be benevolent, why should it be benevolent? Is it because the term 'Divine' is used?

At this stage it is much more probable that it would be a 'Trojan Horse' intervention (THI) with the DI forces presenting themselves as a gift to humanity, with the New Age community eager to be waiting in line when the violet carpet is rolled out, and what does come out, friend or foe ? and does this visitor want a violet or the more traditional blood colored carpet?

### II. Why now?

Because if the forces of dark wait too long with this DI plan, a critical number of mankind will have re-connected with the root of Mind, with their Soul Matrix or Divine Higher/Highest Self, and when this has happened, any enslavement strategy, deceptive or openly, is doomed to fail; truly Enlightened humans would see through any deception, even 'divinely' ordained ones in advance and do not accept any external limitation on their sovereignty/free will as they are fully aware of the truth of who they are: the One, Infinite Creator.

Truth is mandatory for the Light and an option for the dark, rarely chosen. Dis-Information is the starting point (and end point) for those 'higher forces' that wish to enslave us.

We urge you, do not give your power away to any higher forces; you do not need an intermediary between you and the Source, as each one of you is One with the Source of Creation, each one of you is One with the Creator, and each one of you has a unique quality of awareness of this connection, a unique perspective on the Law of One, the only law to which even the Creator, which is You, is totally beholden, as this first Law allows the Creator to express Itself in infinite ways without Creation/Creator descending into irreversible Chaos.

### III. Battle raging at many levels

The channelled messages give the impression that the battle at the higher levels is already won by the Light and that only at the Earth level there is small 'cabal' which is still 'out of control'. Nothing is further from the Truth. The 'Battle' will only be won by the Light when enough humans have made the choice to forgive and embrace their own dark side and thereby forgive and embrace the physical manifestations of the dark side – our 'opponents in the Universal Game' - in our dimensional plane of existence and thereby embrace both Service to Others and Services to Self as valid expressions of the Creator's Light (and simultaneously expressing preference for the former).

As only a relatively small number of humans have yet reached this stage of spiritual awakening, and most have still to overcome their fear of the dark (inner and outer), the inner and outer Battle is still going on.

The so-called 'DI', if not stopped by the forces of Light, means mankind will have a forced confrontation with the dark, disguised as the Light. Most of humanity is not yet re-connected with their higher/highest Divine Self, their Soul Matrix, to successfully prevent or win such confrontation at this stage; however in the period 2012-2017, a critical number of fully enlightened humans could successfully prevent and win such confrontation, as they have re-connected with the primal force, with the Source.

### IV. Battle within is Battle without: projected onto the mirror of Creation

The real Battle is about humanity making the 'right' Choice. For the dark the 'right' choice is that humanity ultimately gives its power away to those that represent 'DI'. For the Light forces the phrase 'DI' is a misnomer as any enlightened aspect of the One, Infinite Creator (i.e. an aspect that is consciously re-connected to the higher divine self or soul matrix) will not infringe on the sovereignty or free will of any other aspect of the One, Infinite Creator.

The dark is planning this so-called 'DI' by the end of the year, pretending that the Forces of Light were intervening to help humanity, although the vast majority of humanity has not yet made up their mind (or heart) about the Choice between Oneness or separateness, between Serving others (equal to self) or serving self greater than serving others, between Unconditional Love or fear. This Choice is to be made without any assistance, without 'DI'.

In short, the vast majority of channelled information are messages from dark sources, disguised in a 'Light' or 'divinely inspired' Trojan Horse vehicle. Assistance from the Light will only come if enough humans choose for the Light, and divine intervention, if it would come now, before a critical number of humanity has chosen for the Light, is a Trojan Horse intervention from the dark. Any ET assistance in the next few years is not from the Light as humanity has not yet evolved to the level where Light forces can manifest themselves without infringing upon the free will of humanity that does not yet believe in the Infinity of Creation. The vast majority of humanity, although making advancement spiritually have not yet developed the belief system that Creation is infinite, nor that the Creator is within. They still have the perspective of limitation, of being a product of Creation or Creator, not a producer or co-producer of Creation. Only a small group sees itself as Creator or Co-Creator.

### V. 'Divine Deception'

You may recall a movie from the late Nineties called the 'Net' where the concept of 'identity' theft on the Internet was introduced. The dark 'identifies' itself interdimensionally to channelers with names that are automatically associated with benevolent forces. This is their way, Divine Deception.

'DI' is an infringement of the sovereignty and free will of the vast majority of mankind, and only the dark has no problems with such infringement, and cloaks this in a silk glove called 'DI'. The galactic and intergalactic ET

forces of the Light will eventually show themselves, when a threshold number of humans have reached Christ consciousness, however humanity is still far away from this critical threshold number.

We are caught in the middle of a major interstellar, interdimensional, extraterrestrial and terrestrial battle for the control of Earth. We urge all Lightworkers to be discerning whenever the phrase 'DI' comes up. Your choice within is reflected without. Do not give your divine sovereignty to choose and power to decide away!

Choose well, and blessings to you all.
